- (5) The sale of the lottery certificates shall be carried out by service providers in the name and for the account of EU Lotto. Several played ticket numbers with the respective shares can be combined on a ticket certificate.

Accordingly, he should offer the game participants also the renewed participation for the subsequent KLS-Game. The acceptance of the offers is free to the game participant.

- (3) The determination of winnings in the KLS-Game takes place by means of a comparison of the tickets registered with the prize money for each draw with the respective draw results of the SKL underlying lottery.
- (4) In the event of a win, the game participant receives a prize notification from the service provider. In addition, the winning numbers of the KLS-Game will be announced in the EU Lotto monthly winners list, which can be viewed or purchased by the service provider. The publications of EU Lotto (for example, digital winners list, television, teletext, press and internet) are without guarantee.

§ 5 Payout

- (1) For the assertion of a winning claim the return of the formal disbursement order, which is enclosed with the winning notification by the service provider, is sufficient.
- (2) The prize amounts shown in the game plan up to an amount of € 1.000.000 shall be paid out to the game participant by his supervising service provider either immediately or credited to the game participant in his customer account and, if desired, with the stake for subsequent classes and, if appropriate, subsequent pay (cf. § 6).
- (3) Cash prizes of up to € 1.000.000 will be paid by the service provider, cash prizes of more than € 1.000.000 and the time-lapse benefits will be paid by the EU Lotto.
- (4) In the event of winning a limited time pension, EU Lotto may allow the customer to opt for the cash option. In this case, the prize will be paid in one sum, which is 65% of the amount paid out in the event of an annuity payment. The choice of the payment method is up to the customer.

Ticket numbers that make a winning on special draws are excluded. These ticket numbers do not stay out of the game because of such a win. All other ticket numbers - even if they have already won - remain in the game until 31.05.2021.
- (2) In order for a winner to be able to continue playing after the departure of his ticket, his service provider shall immediately offer him a follow-up ticket with a new ticket number and a number of ticket shares corresponding to the old ticket. The use of this is basically covered by the profit previously made. The acceptance of the offer is always free to the game participant.
